Product Description

The CBL-10GSFP-DAC-0.5M-LEG passive cable assemblies are high performance, cost effective I/O solutions for 10G Ethernet and 10G Fiber Channel applications. SFP+ copper modules allow hardware manufactures to achieve high port density, configurability and utilization at a very low cost and reduced power budget. The high speed cable Assemblies meet and exceed Gigabit Ethernet and Fiber channel industry standard requirements for performance and reliability.
