

# TERMINATION KITS – COMMERCIAL WIRING

## FOR PYROTENAX COPPER SHEATHED MINERAL INSULATED (MI) WIRING CABLE

### PRODUCT OVERVIEW

The nVent PYROTENAX Pyropak and QuickTerm kits are used to field-terminate nVent PYROTENAX copper sheathed MI wiring cables.

#### QuickTerm Termination Kit

The QuickTerm termination kit is used to field-terminate #6 AWG and larger single conductor copper-sheathed MI wiring cable in nonhazardous areas and is available in two versions. The Size-for-size QuickTerm kit allows the MI solid conductor to be joined to an equal size flexible tail. The sized-up QuickTerm kit allows the MI solid conductor to be joined to a larger size flexible tail.

The QuickTerm kit contains enough material to terminate two cable ends and offers the following features and benefits:

- Reduces the time required to make the cable termination
- Includes a special connector to splice the solid MI conductor to a flexible tail
- Offers improved flexibility of the tail in the cabinet or enclosure

The flexible tail, supplied by the installer, must be compatible with the current rating of the circuit. The tail size selected will depend on whether a "Size-for-size" or a "Sized-up" QuickTerm is used (see "Table 1 QuickTerm Kit Configuration Information" for QuickTerm tail sizes). For further information on installing QuickTerm kits, refer to:

- QuickTerm Installation Instructions (Size-for-size) (H58290)
- Sized-up QuickTerm Installation Instructions (H58264)
- Service Entrance QuickTerm Termination Kit Installation Instructions (H58379)

#### Pyropak Termination Kit

Pyropak termination kits are available for copper sheathed cables of all sizes and must be used to terminate all multiconductor cables and 10 AWG to 8 AWG single conductor cables.

Pyropak kits are approved for use in nonhazardous and hazardous areas. The cable end is sealed using either a mastic sealing compound or an epoxy sealing compound, depending on the temperature rating required. Each kit contains enough material to terminate two cable ends.

To reduce installation time, mineral insulated wiring cables can be supplied with factory terminated ends. Copper-sheathed cables are supplied with brass gland connectors and the cable ends are sealed using the epoxy sealing compound. Refer to the System 1850 data sheet (H57442) and the System 1850 Twisted Pair data sheet (H57473) for further information on wiring cables for use in commercial applications.

nVent PYROTENAX mineral insulated wiring cables are approved as a complete system only when used with the appropriate nVent PYROTENAX termination kit. The use of nonapproved components will compromise the reliability of the system and invalidate approvals and warranties.

For more information on termination kits for MI cable, contact your nVent representative or call (800) 545-6258.

### TERMINATION KITS

Copper-sheathed cables	
Pyropak	Yes
QuickTerm (single conductor cables)	Yes*
* Available for #6 AWG and larger cables	

QUICKTERM TERMINATION KITS FOR SINGLE CONDUCTOR COPPER-SHEATHED CABLES

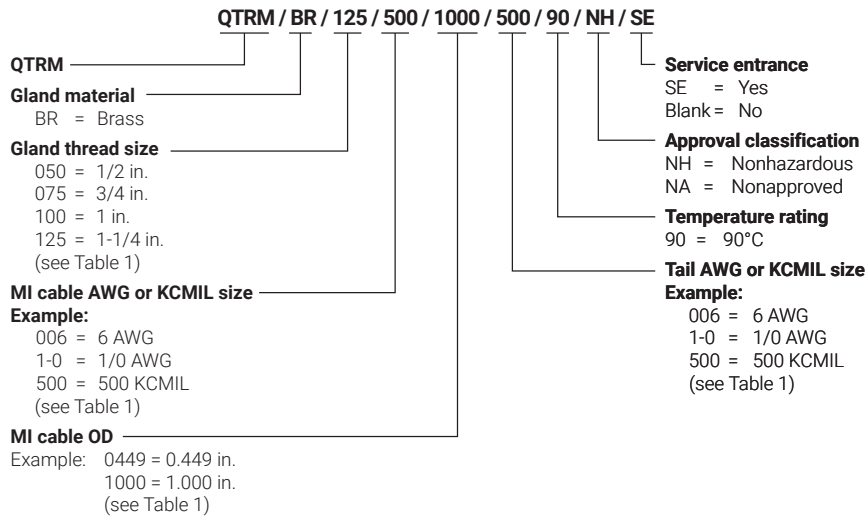

Termination type	Field termination (for two cable ends)
Seal type	Self-amalgamating tape
Temperature rating	194°F (90°C) maximum
Gland connector	Brass
Gland size	1/2", 3/4", 1", or 1-1/4" NPT depending on cable size
Cable configurations	For #6 AWG and larger single conductor copper-sheathed cables
Tail type and AWG size	Supplied by installer (see Table 1 for tail sizes)
<b>Note: Use a cable certified for the application</b>	

APPROVALS

QUICKTERM KIT CATALOG NUMBER CONFIGURATOR

**Example:** Sized-up QuickTerm kit required for 1/3/0-621, single conductor # 3/0 AWG cable to use a 350 kcmil tail is:  
**Catalog No.: QTRM / BR / 075 / 3-0 / 0621 / 350 / 90 / NH**

**TABLE 1 QUICKTERM KIT CONFIGURATION INFORMATION**

System 1850 - Fire-rated MI cable

**Nonhazardous Locations**  
**Hazardous Locations**  
 Class I, Div. 1 and 2, Groups A, B, C, D  
 Class II, Div. 1 and 2, Groups E, F, G  
 Class III

**Note:** For field-terminated cables, tails are obtained by stripping back the cable sheath; refer to the product installation instructions for details.

## PYROPAK KIT CATALOG NUMBER CONFIGURATOR FOR COPPER-SHEATHED CABLE

Imperial: PPAK / BR / 125 / T 1 G / 1000 / 105 / D1 / 01 / 500 / A036B012IN

or

Metric: PPAK / BR / M40 / T 1 G / 1000 / 105 / D1 / 01 / 500 / A091B030CM

PPAK

Gland material

BR = Brass

Gland thread size

050 = 1/2 in.; M20 = 20 mm  
075 = 3/4 in.; M25 = 25 mm  
100 = 1 in.; M32 = 32 mm  
125 = 1-1/4 in.; M40 = 40 mm  
(see Table 2)

Type of pot

T = Threaded pot/screw-on pot

Tail material

1 = PVC\*  
3 = Silicone fiberglass\*\*

Sealing Compound

G = Green mastic compound  
A = Standard epoxy  
D = Optional epoxy

MI cable OD

Example: 0449 = 0.449 in.  
1000 = 1.000 in.  
(see Table 2)

Termination temperature rating (°C)

105 = T1A  
120 = T3A  
105 = T1D  
150 = T3D HAZ. AREAS (200 = NON-HAZ. AREAS)  
105 = T1G  
105 = T3G

**Note :** Use temperature shown depending on pot, tail material and sealing compound selected.

**Note :**

\* PVC sleeving is standard

\*\* Select Silicone fiberglass sleeving if termination will be exposed to temperatures between 105°C and 200°C

### Legend

D1 = Division 1

D2 = Division 2

NA= Nonapproved

NH= Nonhazardous

**Tail length both ends & unit of measure**

**Imperial example:**

A036B012IN = 36" tail end "A", 12" tail end "B"

**Metric example:**

A091B030CM = 91 cm tail end "A", 30 cm tail end "B"

Note: A Pyropak kit includes material to terminate both ends of a cable run. Select tail length for each end.

**AWG or KCMIL size**

**Example:**

016 = 16 AWG

1-0 = 1/0 AWG

500 = 500 KCMIL

(see Table 2)

**Number of conductors**

**Example:**

01 = 1 conductor

04 = 4 conductors

10 = 10 conductors

**Area classification**

D1 = Class I, Div 1, Groups A, B, C & D

Class II, Div 1, Groups E, F & G

Class III

D2 = Class I, Div 2, Groups A, B, C & D

Class II, Div 2, Groups E, F & G

Class III

NA = Nonapproved

NH = Nonhazardous (select if temperature = 200)

**Example:** Pyropak kit required for 4/14-465, four-conductor, # 14 AWG cable, for Class I, Div 1, with 12 in PVC insulated tails on both ends, and using standard epoxy sealing compound is:

**Catalog No.:** PPAK / BR / 075 / T1A / 0465 / 105 / D1 / 04 / 014 / A012B012IN
