

# AU7100

## Digital Audio Bluetooth Receiver

### PLAY WHATEVER MUSIC YOU WANT, WHEN YOU WANT IT.

With the AU7100-XX Digital Audio Bluetooth Receiver, accessing the music you love has never been easier. Wirelessly connect any Bluetooth enabled device, like iPods, smart phones, and tablets, to your Digital Audio System to stream your favorite music throughout your home.

Connecting is simple. The small Digital Audio Bluetooth Receiver plugs directly into the AU7007-XX Global Source Input or AU7008-XX Local Source Input to add Bluetooth connectivity to your home audio system.

#### FEATURES

- Wirelessly connect any source to the Digital Audio System via Bluetooth
- One thousand unique device names allow multiple units to be used within a system
- Bluetooth 4.0 with A2DP
- Designed in three colors to coordinate with the Global and Local Source Inputs (white, light almond and nickel)

#### BENEFITS

**Easy Listening:** Listen to the music you want, whenever you want it, with wireless connection to any Bluetooth enabled device, like iPods and smart phones

**Easy to Connect:** Simply plug the Digital Audio Bluetooth Receiver into the front of the Local or Global Source Inputs to wirelessly connect to your system via Bluetooth
